

# THE CANE GROWERS' QUARTERLY BULLETIN

VOLUME XXXIII

## CONTENTS

	Page
Editorial .....	3
More Nitrogen Less Return, by J. A. Currie .....	4
Field Day Address, Meringa, 13th May, 1969, by J. H. Buzacott .....	6
Control of Habana Oat Grass, by L. S. Chapman .....	8
Technologists Conference at Maryborough .....	10
Mosaic—Choose Your Weapons! by E. A. Pembroke .....	11
The Habits of the Large Moth Borer, by A. Macqueen .....	13
Wild Sorghum and Johnson Grass, by J. F. Usher .....	21
Visitor from Hawaii .....	22
Why Do C.C.S. Losses Vary So Much After Storage? by B. T. Egan .....	23
Trojan Being Surpassed in the Burdekin, by I. T. Freshwater .....	25
Ratoon Stunting Disease Accentuated by Drought, by D. R. L. Steindl .....	26
Apply BHC Dust Correctly in the Half Open Drill, by B. E. Hitchcock .....	27
Applying Nitrogen with Herbicides, by I. J. Stewart and H. L. Boyle .....	28
A New Trial Method for Leaf Scald Testing, by B. T. Egan .....	29
Green Manure Variety Selection .....	30
Do You Want This Fertilizer Service? by M. B. C. Haysom .....	31
Supervise Mechanical Harvesting, by C. A. Rehbein .....	32
Fiji Again at Bundaberg, by C. G. Hughes .....	33
Fertilizing Advice in the Proserpine Area, by A. A. Matthews .....	35
Popularity of Different Varieties .....	36
Editorial .....	39
R.S.D.—Do You Control It, or Does It Control You? by B. T. Egan .....	40
Army Worms, by B. E. Hitchcock .....	42

	Page
Successful Crop of Mixed Legumes, by L. K. Izatt .....	47
Profit by Accurate Calibration of Sprayers and Fertilizer Distributors, by L. G. W. Tilley and J. Wright .....	48
The Acute Stage of Leaf Scald, by C. G. Hughes .....	52
Approved Varieties, Changes Forecast for 1970 .....	57
The Significance of Arrowing, by C. G. Story .....	57
How Long Can Soldier Fly Live in Bare Fallows? by B. E. Hitchcock .....	58
Major Weeds of Southern Districts and Their Control, by J. Anderson .....	60
Sugar, by C. G. Story .....	63
R.S.D. Field Tours in Northern Queensland, by B. T. Egan .....	64
Measurement of Water Levels in Deep Bores, by G. Kingston .....	66
Special Jobs—Special Machinery, by L. G. W. Tilley .....	67
Grass Control by Chemicals, by C. M. McAleese .....	68
Agricultural Chemicals Can Be Dangerous, by I. J. V. Stewart .....	70
A Visitor from Hawaii .....	71
A Cane Grub New to Bundaberg Growers, by R. M. Bull .....	72
Editorial .....	75
Developments in the Methods of Distribution of Flood Irrigation Water, by I. T. Freshwater .....	76
Bundaberg Growers! Watch for Fiji Disease .....	79
New Meringa Building, by J. H. Buzacott .....	80
The Value of Variety Selection at the Mackay Sugar Experiment Station, by D. Garioch .....	81
Japanese Sugar Cane, by J. H. Buzacott .....	83
The Soldier Fly, by G. Wilson .....	84
Cane Tops for Drought Fodder .....	86
The Hand Refractometer for Maturity Testing on Farms, by A. D. Doolan .....	87
New Offices for Mulgrave Mill, by J. H. Buzacott .....	93
Where the Climbing Rats Live, by T. D. Redhead .....	94
The Control of Weeds in the Mackay Area, by E. A. Pembroke .....	96
R.S.D.—An Anniversary, by B. T. Egan .....	100
Overhead Irrigation at Bundaberg, by S. O. Skinner .....	102
Historic Piping, by S. O. Skinner .....	104
Why Should Urea Be Incorporated with the Soil? by G. Kingston .....	105
Cane Ripeners .....	106
Approved Varieties .....	107

	Page
Editorial	111
Major Weeds of the Northern District and their Control, by C. M. McAleese	112
Approach Hot Water Treatment with Caution, by C. A. Rehbein	115
Fertilizer Mixtures Not Required on Most Burdekin Soils, by I. T. Freshwater and J. A. Currie	116
Bagasse Surplus May Be Useful, by C. M. McAleese	118
Annual Conference of Cane Pest and Disease Control Boards	119
Some Thoughts on Soil Sampling and Fertilizer Recommendations in the Central District, by E. A. Pembroke	120
Furrow Irrigation on Burdekin Farms, by C. A. Rehbein	122
1970 R.S.D. Field Tours—An Invitation to Northern Farmers, by B. T. Egan	124
Rotary Filter Mud, by C. G. Story	129
Conference of Queensland Society of Sugar Cane Technologists at Mackay	131
Cyclone Damage at Prosperpine, by A. A. Matthews	132
Is Soil Erosion a Problem on Your Farm? by J. Wright	134
Are Short Rows Necessary in Contoured Canefields, by E. Sypkens	137
Approved Varieties—1970. Fairymead Mill Area	142
Weed Control at Planting, by A. W. Ford	143

#### VOLUME XXXIV

Editorial	3
Mr J. H. Buzacott, M.Sc., M.B.E.	4
Insecticides and the Soldier Fly, by R. M. Bull	5
The Sundown Drain Sprayer, by C. R. Nalder	8
Field Day Address—Meringa	9
Bureau Nitrogen Recommendations for Mackay and Prosperpine Areas, by L. S. Chapman	10
Clean Drains Make Better Drains, by A. I. Linedale	13
Ayr Field Day Address, 1970, by Norman J. King	15
Isis Growers—Beware of Fiji Disease, by C. D. Jones	21
An Automatic Weight Recorder for the Whole Stalk Loader, by L. G. W. Tilley	23
Budget for Value, by C. L. Toohey	24
Field Day at Ayr	28
Giant Sensitive Plant, by I. T. Freshwater	30
For Health's Sake—Be Careful, by J. F. Usher	32
Soil Erosion by Water, by L. K. Izatt	33

	Page
An Efficient Stone Picker, by L. G. W. Tilley	36
Editorial	39
Rat Investigations at Meringa, by T. D. Redhead	40
Forecast of Approved Varieties, 1970	42
Sugar Cane Needs Nitrogen, by K. C. Leverington	43
Notes on Nitrogen Fertilizing From the Cane Growing Areas	45
Leaf Scald in the Maryborough District, by D. R. L. Steindl	49
New Proclamation for Maryborough—C.G.H.	51
Fibre in Cane, by P. G. Atherton	57
Fiji Disease, by C. G. Hughes	59
Bureau Takes Precautions to Prevent Spread of Fiji Disease	61
Fiji Disease—The Campaign at Bundaberg, by J. Anderson	61
A New Experiment Station—Tully, by I. J. V. Stewart	65
Squamulata Grubs—A Serious Pest in Sandy Soils, by J. A. Currie	66
1,000 Farmers Help Stamp Out R.S.D., by B. T. Egan	68
Q.82 and Q.84 in the Far North, by E. F. Copley	69
"Improve Seedcane Quality and Crop Hygiene", say the South Africans—B.T.E.	71
Field Advisory Service Expands at Mackay	72
Editorial	75
Levelling for Flood Irrigation, by P. J. Nielsen	76
Spraying Paraquat (Gramoxone)?—Wear a Mask!	77
Pests are Costly	77
The Blue Top Weed Problem in Cane Fields, by G. A. Christie and District Officers	78
Hazard Becomes Asset, by P. A. Jones	83
Scale Insect in the Maryborough District, by J. Wright	84
Starch in Cane, by L. K. Kirby	87
Dominant Varieties of the 1969 Cane Harvest	88
Common Soil Erosion Problems, by L. K. Izatt	93
The Cane Breeding Story, by D. M. Hogarth	94
How Do You Handle Short Rows Between Contour Banks? by C. D. Jones	100
Pokkah Boeng—A Common Disease of Little Consequence, by J. F. Reimers	101
Bulk Fertilizer is Here, by C. W. A. Chardon	103
The Tritter, by J. F. Usher	105
Ratoons—For How Long?	106

	Page
Approved Varieties—1971 .....	107
Approved Fodder Canes .....	108
Editorial .....	111
Blue Heliotrope—A Difficult Weed to Control, by C. D. Jones .....	112
Current Methods of Cane Grub Control in Queens- land, by G. Wilson .....	113
A Versatile Boom Spray Unit, by L. G. W. Tilley .....	118
Experiment Stations Field Day .....	120
Vine Weeds in the Herbert River District, by O. W. D. Myatt .....	121
Successful Disease Control Prosecution at Mackay .....	123
Wireworm Control, by A. A. Matthews .....	124
Copper Deficiency and Droopy Top in Cane, by I. J. V. Stewart .....	129
Notes on Droopy Top in the Various Cane Growing Areas .....	130
Approved Varieties .....	133
Farm Planning—A Real Necessity, by A. I. Linedale .....	134
Salvinia—A Rival for Water Hyacinth? by J. F. Usher .....	137
Choose the Right Variety, by C. M. McAleese .....	139
Volunteer Cane Stools are Dangerous, by B. T. Egan .....	143
Flea Beetles—The Cause of Unusual Damage to Young Shoots, by I. T. Freshwater .....	144
Annual Conference of Cane Pest and Disease Control Boards .....	144
